Lutron

DESCRIPTION

The Caseta Wireless Plug-In Lamp Dimmer (2-Count) Starter Kit is the easiest way to start making your home smart. Simply plug the dimmers into a standard outlet, connect the Smart Bridge to your wi-fi and you are all set. Each dimmer can control up to two lamps. Kit controls up to four plug-in lamps. Set up and schedule lights so your family will always come back to a well-lit home. Lights can automatically adjust with changing seasons and daylight savings time. Enable smart away feature turns lights on/off randomly when you are traveling. Use with voice assistant, Pico remote (included) or mobile device via the free Lutron app for iOS and Android. Tested and recommended for use with over 1,000 dimmable LEDs, incandescent and halogen bulbs (check with manufacturer for LED dimmer compatibility). Includes Smart Bridge and Lutron app (with HomeKit technology), two plug-in dimmers, two Pico remotes, two tabletop pedestals, and an installation guide.
