

BRAND

Lutron

DESCRIPTION

The Caseta Wireless Starter Kit gives you smart lighting control for up to two rooms. Replaces two wired in-wall switches and are an ideal solution for older homes as they do not require a neutral wire. It is easy to use, simple to set up, and gives you a smart system that you can expand at your own pace. Set up and schedule lights so your family will always come back to a well-lit home. Lights can automatically adjust with changing seasons and daylight savings time. Enable smart away feature turns lights on/off randomly when you are traveling. Use with voice assistant, Pico remote (included) or mobile device via the free Lutron app for iOS and Android. Tested and recommended for use with over 1,000 dimmable LEDs, incandescent and halogen bulbs (check with manufacturer for LED dimmer compatibility). Includes Smart Bridge and Lutron app (with HomeKit technology), two in-wall light dimmers, two wall plates, two Pico remotes, two tabletop pedestals, and an installation guide.
