Vetra Pendant

By Marset

Description

The Vetra Pendant could be no more than a traditional, old-fashioned, blown-glass lamp on first impressions, but turning it on yields a surprise. A completely closed matte finish blown glass diffuser as a reflector that creatively places the light source outside -instead of inside- the shade. This gives off more light than one would expect, without glare. Much of the light is directed downward, and the rest is filtered toward the inside of the shade, subtly illuminating it. Like an echo multiplying the light, when it's on, its entire outline is drawn out and seems to come alive.
