Cut Floor Lamp

By Axolight

Description

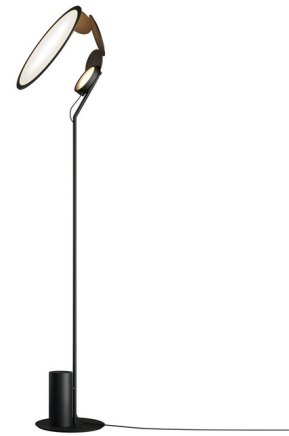

The Cut Floor Lamp offers a sleek, modern look featuring a tall Intense Black finished body that extends up from a round floor base with cylindrical weight. The light source can be installed in three different positions. The laser-cut aluminum structure, folded in several points, connects two elements with the light source embedded in a circular metal support with a semi-transparent diffuser embedded in a ring. The two elements face each other so that the light emitted is filtered and partially reflected by the screen. LED driver included. On/off switch on cord.
