# Plant Chandelier - Discontinued Floor Model

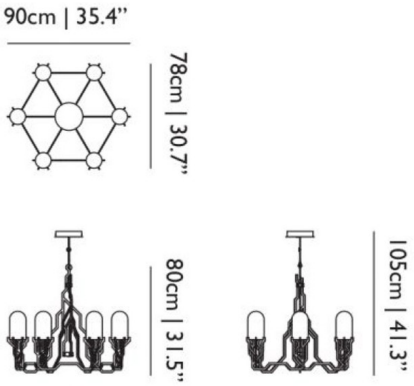

By Moooi

## Description

The Plant Chandelier, designed by Kranen/Gille, captivates the architectural uniformity in nature's design, with branches that grow and spread in definite directions. The Plant Chandelier is part of a small collection of several Plant designs and was designed and developed for the NoordBrabants Museum in The Netherlands. The philosophy behind its design is the imitation of nature's structures, while indulging in the poetry of their beauty. Trailing edge and reverse phase dimming. NOTE: This is a discontinued model and limited to quantity on hand.

Shown in brass
