Abaca Linear Pendant

By Elk Home

Description

The Abaca Linear Island Pendant has a simplistic design allowing the material to be the focus of attention. This pendant would work well with a coastal, eclectic or rustic decor. Abaca is a species of banana tree, grown in the Phillipines. The stalks produce fibers used in decorative items due to the flexibility, strength and natural beauty. Each strand of Abaca rope is tightly hand wrapped to form the textural frame of warm neutral-toned colors. The Satin Brass finished hardware complements the design with a metallic accent.
