## Abaca Wall Sconce

By Elk Home

### Description

The Abaca Wall Sconce has a simplistic design allowing the material to be the focus of attention. This sconce would work well with a coastal, eclectic or rustic decor. Abaca is a species of banana tree, grown in the Phillipines. The stalks produce fibers used in decorative items due to the flexibility, strength and natural beauty. Each strand of Abaca rope is tightly hand wrapped to form a textural facade of warm neutral-toned colors. The Satin Brass finished hardware complements the design with a metallic accent.

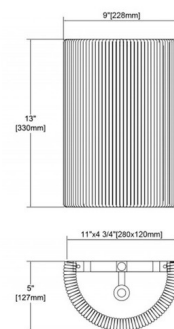

Shown in satin brass / abaca rope
