Melt Pendant

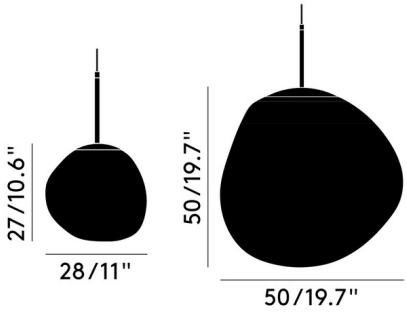

By Tom Dixon

Description

The Melt Pendant is obsessed with the idea of creating an imperfect, organic and naturalistic lighting object. Created in collaboration with FRONT, a Swedish design collective, Melt is evocative of molten glass, the interior of a melting glacier, or images of deep space. When turned on, the Bronze, Copper, Gold, Silver, and Smoke shades become a translucent textured color. The Opal shade offers a more traditional look and produces a soft, warm glow. Canopy: 4.9 inch diameter.
