Ocean Chair By Mater Design

Description

Originally created in 1955 by Danish designers
Jorgen and Nanna Ditzel, the Ocean Chair is
created from upcycled plastic and is intended to
reduce plastic waste in the ocean. The chair is
characterized by its light structure, composed of
curved plastic slats and an open tubular steel
frame. The Black and Sand chairs incorporate
plastic from discarded fishing nets, and the
Green chair contains plastic repurposed from
beer kegs from Denmark's Carlsberg brewery.
Suitable for outdoor use.Note: Due to the recycled
nature of the materials, the appearance of each
piece may vary.

Shown in gunmetal / black
