## Ocean Long Table

By Mater Design

## Description

Originally created in 1955 by Danish designers
Jorgen and Nanna Ditzel, the Ocean Table is
created from upcycled plastic and is intended to
reduce plastic waste in the ocean. The chair is
characterized by its light structure, composed of
curved plastic slats and an open tubular steel
frame. The Black and Sand tables incorporate
plastic from discarded fishing nets, and the
Green table contains plastic repurposed from
beer kegs from Denmark's Carlsberg brewery.
Suitable for outdoor use.Note: Due to the recycled
nature of the materials, the appearance of each
piece may vary.

Shown in gunmetal / black
