C-Series In-Ground 120V Well Light

By Kichler

Description

The C-Series Landscape In-Ground 120 Volt Well Light features the ability to adjust the direction of the light from outside the fixture - leaving the factory seal intact. Features a cast brass housing that sits within a heavy-duty polymetric sleeve, and also offers silicone rubber gaskets at the lens, a potted driver, and a strain relief below, all designed to prevent water ingress. Integrated 10 or 20 watt, 120-277V volt 3000K, 4000K or 5000K color temperature LED module with 45 or 60 degree beam angle. Composite installation sleeve included for direct in-ground or concrete commercial installations. ETL listed for wet locations.
