## Bud Portable Lamp - Overstock By Innermost

## Description

Bud is a fun, portable LED lamp that is perfect to take on the go thanks to its cordless design and petite scale. Drawing inspiration from nature, Bud is comprised of a globe bulb nestled between two petal-like forms that appear to cradle and protect the light source. Bud features a unique dimming function that allows for three different light settings, activated by pushing down on the top of Bud's bulb, increasing light intensity from 25 to 50 to 100 percent with each sequential push. A micro USB cable is included to allow Bud to fully recharge within 5 hours. Maximum battery life is 20 hours at 25 percent intensity, 10 hours at 50 percent, or 5 hours at 100 percent. NOTE: This is a discontinued model and limited to quantity on hand.
