Aurora Chandelier

By Lee Broom

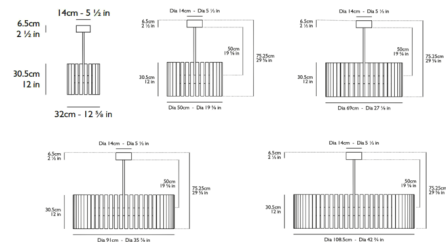

Description

The Aurora Chandelier projects an ethereal ring of light. Created and produced by Lee Broom, the hand blown glass bulbs contain a perpendicular LED filament which refracts against the vertical lines of the reed glass. This piece offers a sophisticated design that will enhance your surroundings. Available in three sizes. Overall drop length to be specified at time of order. Note: The GU18 linear LED bulb for this fixture is proprietary and replacements must be ordered from the manufacturer. Dimmable 20% - 100% with selected dimmers. Main voltage Trailing Edge. Contact manufacturer for recommended dimmers. Note: Due to the weight of the fixture, the 42.8 inch diameter chandelier requires additional ceiling support.

Shown in polished stainless steel / clear
