AP Slim Exhaust Fan w/Light/Humidity Sensor - Discontinued

By Aero Pure

Description

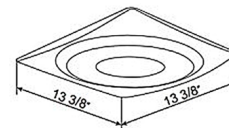

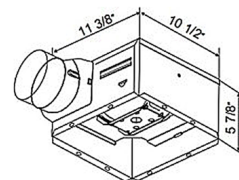

The energy-efficient AP 90 CFM 0.3 Sone Slim Fit Exhaust Fan with Light and Humidity Sensor combines an ultra-quiet bath fan with an LED light to provide ventilation and illumination for your space. Its low-profile grille in a easy-care Satin Nickel finish offers design flexibility, working well with any interior style. An integrated humidity sensor turns the fan on when humidity rises above a level set by the user (50-100%), a convenient feature for heavily used bathrooms. The light is available in dimmable 4000K color temperature. The fan and light can be wired separately. This fixture is IC-rated, suitable for new construction or remodel applications, and can be installed in a wall or ceiling. It fits in 2 x 6 inch construction, perfect for smaller joist spaces. It has rust-proof steel motor housing, a built-in backdraft damper and thermal shutoff, and includes articulating expandable anti-vibration brackets and a detachable connector for 4 or 6 inch ducts. ETL listed for use in a tub or shower enclosure when GFCI-protected.
