Pivot Pendant

By Dainolite

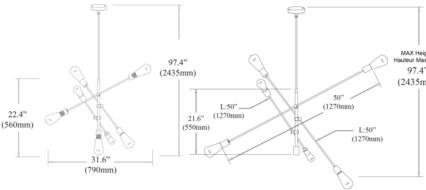

Description

The Short Arm Pivot Pendant is an adjustable light that allows its user to create a distinct and unique shape out from a simple structure. Off of the downrod rests three arms at various heights. These arms are attached to the downrod via a pivot joint, allowing the arms to be adjusted to be vertical, parallel, or completely catawampus; thus making the Pivot Pendant a customizable structure that can perfectly suit your space.

Shown in matte black
