Amisol Pendant

By Luceplan

Description

The goal of the Amisol Pendant is to occupy a large physical space with minimal physical volume. A translucent white film or a metallized mirror membrane is stretched inside a circular aluminum profile. A powerful light source projects a beam of light onto the large, almost weightless disk, either diffusing or reflecting the light. Thin rods connect the two main elements together. By altering the length and the connecting points of the two supporting wires, the rotation of the disk can be set in any angle.

Specifications

COLOR	N/A
BODY FINISH	Gold
WATTAGE	52W
DIMMER	0-10V
DIMENSIONS	29.5"W x 24"H
INTEGRATED LED MODULE	1 x LED/52W/120-277V LED
COUNTRY OF ORIGIN	Italy

Technical Information
