Suspenders Tri-Bar Pendant with Monoline Thin Cylinders

By Sonneman

Description

The Suspenders Tri-Bar Pendant with Monoline Thin Cylinders transforms your space with its impactful, expansive design. Spread across a large interior space, Monoline Thin Cylinder luminaires are gracefully suspended at staggered heights from three horizontal power bars. Overlapping of the bars creates an intriguing composition where the lights are clustered more densely toward the center and thin out at the extremes. Note: The included transformer must be installed in a remote accessible location.

Shown in satin black
