Facet Color-Select Round Adjustable Gimbal Downlight

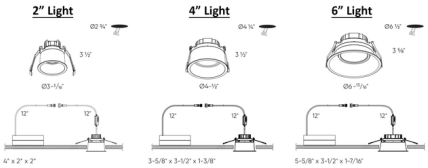

By DALS Lighting

Description

The Facet Adjustable Gimbal is a versatile thin-trim gimbal light with multi-directional adjustable swivel, delivering high light output with minimal glare from its regressed light source. It casts a 40 beam angle, and can rotate 360 degrees and tilt 30 degrees. This versatile light is ideal for general lighting or for areas requiring a directional light to highlight unique elements or create dramatic wall-wash effects. A junction box with integrated driver is included. Color temperature (CCT) is set using a switch on the cable: 2700K, 3000K, 3500K, 4000K, or 5000K. Can be daisy-chained. TRIAC dimmable (see attached manufacturer dimmer reference).

Shown in white
