# Hauteville Rocking Chair

By Lyon Beton

CONTRACT GRADE

## Description

The Hauteville Rocking Chair designed by Henri Lavallard Boget for Lyon Beton, draws inspiration from iconic mid-century design with a modern twist. Constructed with a concrete shell, rebar legs, and plywood runners. Despite the use of unconventional materials, the concrete rocking chair has an incredibly ergonomic and comfortable seat, while ultra-fine sanding gives it a silky-smooth finish. Versatile enough for practically any space, this minimalist design will leave an impression everywhere it goes.

Shown in natural concrete / light grey
