Isthmus Dining Table

By hollis+morris

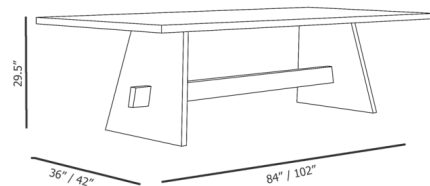

Description

The Isthmus Dining Table is named after a narrow strip of land with sea on either side, a natural occurring geography with a powerful visual presence. By abstracting the aforementioned form, the Isthmus Table was born. The solid wood table adds prominence to any room where it rests. Another aesthetic feature is the polished metal trestle that spans between the legs of this elegant table, which adds a smoother texture in contrast to the table's wood grain.

Shown in natural oak / copper
