## Discovery Vertical Suspension

By Artemide

### Description

The Discovery Vertical Suspension is a seemingly unobtrusive, utterly absent and immaterial element. An Aluminum, Black, or Bronze ring houses an LED strip that injects light into a specially worked surface with micro particles so small that the surface is hardly perceptible when the appliance is turned off. When the appliance is turned on, the transparent interior appears to fill with light as if by magic, as absence is turned into a perfectly diffusing emitting surface. Dimmable via 2-wire dimming or 0-10V dimming.

Shown in black / transparent
