## T598 Rigid Ceiling Cable Suspension and Feed Kit

By Juno Lighting

### Description

The T597 Cable Suspension Kit and Feed Kit offers an almost invisible solution for suspending trac and feeding one-circuit track, and is ideal for applications that demand that trac lighting be mounted closer to the objects being illuminated. Universally compatible with Juno Trac-Master and Trac-Lites trac systems. Attaches directly to junction box in rigid ceilings. Available in Black or White finish in a 48 or 144 inch electrical feed adjustable cable length. Includes canopy, j-box mounting strap, cable hardware and flexible electrical feed cable. Trac feed connector not included (sold separately). Trac requires support every 4 feet.
