Cove Recessed Downlight with Trim By Maxim Lighting

Description

The Cove Recessed Downlight with Trim offers a IC Airtight UL rated Outlet Box that is fitted to the fixture for easy installation without the use of a recessed housing. To reduce glare that is associated with other recessed downlights, the Cove uses an innovative concave lens that directs the light upward and is then reflected back down offering even and abundant illumination. The Cove is one of the most versatile downlights in the market. Available in two sizes and in color temperatures of 3000k and 4000k. Damp location rated. Energy Star approved. UL and Title 24 listed.

Shown in white
