Dew Pendant

By SkLO

Description

The Dew Pendant expresses the molten nature and visual wonderment of hand-blown glass. The organically shaped Glass is composed of many layers, giving it a dripping appearance. A solid Brass armature holds the beautiful diffuser in place and creates a perfectly smooth contrast to the glass. Note: One 6 inch, two 12 inch, and one 18 inch downrods are included as standard and allow for field adjustability. Custom, non-adjustable overall heights can be specified to order (additional fees may apply).
