600W 12V Remote Magnetic Transformer By Visual Comfort Architectural

Description

This remote magnetic transformer converts standard 120 Volt

line voltage to 12 volts, providing the necessary voltage

for powering a monorail, kablelite, radius wire, twin rail,

wall monorail or freejack low voltage lighting system. The

remote AT600T magnetic transformer can be used to power

lamps totaling up to 600 watts. This transformer is equipped

with fast-acting secondary circuit breaker that will safely

turn off the system should a short occur. Once the short has

been removed the breaker can be reset.
