Hubble Bubble Pendant

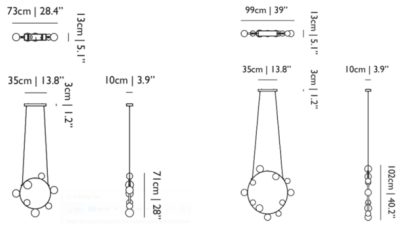

By Moooi

Description

The Hubble Bubble brings back childhood memories of blowing bubbles and running barefoot on the lawn. The Integral LED modules are powered through Electrosandwich, created by Marcel Wanders. This technique uses thinly coated conductive layers that enable the LEDs to draw low voltage current from the frame. Available in oil-iridescent or frosted glass with a Nickel finish, The Hubble Bubble can be hung both horizontally and vertically.Dimmable with Trailing Edge and Reverse Phase dimmers.

Shown in nickel / oil iridescent
