DESCRIPTION

Series 28 is an exploration of specificity in manufacturing. Instead of designing form itself, the intent was to design a system of making that yields form. Individual 28 forms result from a complex glass-blowing technique whereby air pressure is intermittently introduced into and then removed from a glass matrix which is intermittently heated and then rapidly cooled. The result is a distorted spherical shape with a composed collection of imploded inner shapes, one of which acts as a shade for the light source. Available with 1.5W LED or 20W Xenon lamping. Choice of standard or mini canopy with a Brushed Nickel or powder-coated White finish. The mini canopy is just over 1.2 inches in diameter, which creates a subtle profile that will essentially disappear into the application surface. The mini canopy option must be remote mounted (fixture does not hook directly to a junction box) while the standard canopy option is designed to fit over an existing junction box in which the transformer is installed. UL and CE listed.

SHADE COLOR	Clear
BODY FINISH	Brushed Nickel
WATTAGE	20W
DIMMER	Low Voltage Electronic
DIMENSIONS	6.5"W x 6.5"H
BULB INCLUDED	
LAMP	1 x Bocci JC/G4 (bipin)/20W/12V Krypton Xenon

Technical Information

PRODUCT DIMENSIONS Coaxial Cable Length: 120 inch adjustable
