DESCRIPTION

Series 73 results from blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. Due to the hand-crafted nature of the 73 series, the size as well as color depth and tonality will vary. Available with 1.5W LED or 10W Xenon lamping. Choice of Clear or three different shades of Grey glass. Choice of 3.1 inch diameter mounting plate designed to be mounted on walls and ceilings which does not attach directly to a junction box and requires the power supply (included) to be remotely mounted or a paintable 4.5 inch diameter mounting plate designed to be mounted on walls and ceilings directly to a standard junction box. Both versions are IP65 rated for wet locations. UL and CE listed.
