Blow Ceiling Fan

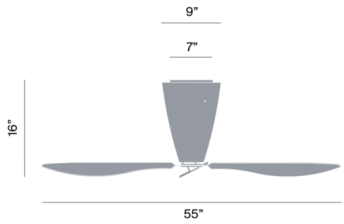

By Luceplan

Description

The Blow Ceiling Fan moves air at variable speeds with a minimum of noise. The rotation of the colored or transparent methacrylate blades does not interfere with the emission of white light in the room. The White Opal body houses the motor as well as the light source, emitting a warm glow when illuminated.Choice of Transparent or screen-printed Transparent blades. Includes Infrared remote control (three rotation speed, control for reversing blade rotation).

Shown in opal / transparent
