**DESCRIPTION**

The Selenite Wall Sconce brings a glamorous vibe to a variety of interior styles. Natural Selenite Crystal wands, of varying sizes, form a cylinder rests on an arm of Brushed Nickel. Selenite is a natural crystalline material with wide decorative appeal. By its sheer nature, imperfections such as other mineral deposits, which may appear as colored sections or varying crystalline structure, are not only expected, but indeed add to the beauty of the piece. The softness of selenite may result in separation of sections of crystal, which can be reattached with the use of a clear adhesive.
