Moonlight Sonata Linear Multi Light Pendant By John-Richard

Description

The Moonlight Sonata Linear Multi Light Pendant brings glitz and glamour to your interior space. Natural Selenite Crystal panels are individually mounted on arms of Brushed Stainless Steel. Selenite is a natural crystalline material with wide decorative appeal. By its sheer nature, imperfections such as other mineral deposits, which may appear as colored sections or varying crystalline structure, are not only expected, but indeed add to the beauty of the piece. The softness of selenite may result in separation of sections of crystal, which can be reattached with the use of a clear adhesive.

Shown in brushed stainless steel / selenite
