Moonlight Sonata Round Multi Light Pendant By John-Richard

Description

The Moonlight Sonata Round Multi Light
Pendant brings glitz and glamour to your interior
space. Natural Selenite Crystal panels are
individually mounted on arms of Brushed
Stainless Steel. Available in two sizes. Selenite is a
natural crystalline material with wide decorative
appeal. By its sheer nature, imperfections such as
other mineral deposits, which may appear as
colored sections or varying crystalline structure,
are not only expected, but indeed add to the
beauty of the piece. The softness of selenite may
result in separation of sections of crystal, which
can be reattached with the use of a clear
adhesive.

Shown in brushed stainless steel / selenite
