Chanpen Hexagon Table Lamp

SPEC # FRR960027

BRAND Forestier

DESCRIPTION

The Chanpen Hexagon Table Lamp resembles the beauty of a full moon. A handmade spherical shade is woven from abaca, a banana tree fiber, and forms an engaging, geometrical pattern along the round surface. Rooted with a marble base, the Chanpen's contemporary design works well in modern interiors. On/off switch located on the lamp's base. Finished with White, Black, or Natural shade and with either a Copper or Gun Metal stem. UL listed.

Shown in: Copper / White
