Fanaway Downrod By Beacon Lighting

Description

Fanaway 3/4 inch diameter downrods come in a variety of lengths to customize your ceiling fan based on the height of your room. Setting your Fanaway ceiling fan at the proper height allows for maximum performance. The bottom of the fan should be at least 7-feet from the floor. 8 to 9-feet is the recommended standard for optimal circulation. Fanaway downrods are non-threaded with set screws and cross pin for added security and stability. For angled ceilings please check the instruction manual for the maximum angle allowed with the canopy included with your Fanaway ceiling fan. Note: Not all options available for Antique Gold. Galvanized Silver downrod recommended for use with Gray Silver finish on Fanaway Carbondale fan.

Shown in brushed chrome
