Searow Outdoor Ceiling Fan By Hunter Fan

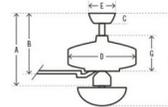

Description

The Searow Outdoor Ceiling Fan is wet rated and salt-air resistant making it a great choice for an outdoor fan in any environment. Exclusive SureSpeed guarantees high-velocity airflow while the WhisperWind motor allows for quiet operation without a loss of airflow. A pre-installed remote control receiver eliminates the need for additional wiring as well as the common dead switch and maintains functionality of both switches on a dual switch. Includes a 4 inch and 2 inch downrod as well as a wall control to operate the fan speeds and direction. Available in a Matte Black motor with Matte Black blades or a Matte Silver motor with Matte Silver blades. Works with Hunter and Casablanca accessories, not including Hunter Original accessories. ETL listed, wet locations.
