PH Snowball LED Pendant

By Louis Poulsen

Description

The PH Snowball LED Pendant emits comfortable glare-free diffuse light. Matte painted under surfaces and glossy top surfaces result in an attractive reflection of the diffused light, creating uniform light distribution around the fixture. When the light is switched on, the top portion is illuminated while the bottom part reflects the light. Phase (120V) or 0-10V (120-277V) dimming options. UL and cUL listed.
