

BRAND

PureEdge Lighting

DESCRIPTION

Lazer Line is a 24VDC Direct/Indirect (uplight and downlight) LED Lighting System providing general illumination for architectural applications. The field-cuttable dual strip channel is sold in 5 foot increments with 10 watts per foot (4.4 watts up/4.4 watts down). Features uplight in RGB (Red/Green/Blue) color temperature and downlight in 2400K, 2700K, 3000K, 3500K. Finish in White or Black. Product is built to order. System includes Lazer Line Channel (LZUD), Lazer Line Tape, and one pair of turnbuckles. Additional turnbuckles needed and standoff(s) are sold separately. System can be run up to 20 feet with two power feeds at one end or 40 feet with power feeds at both ends. Note: A DMX Dynamic color changing power supply is required and sold separately. DMX power supply must be used with PureEdge CDMX1-RGBW or CTP controller.
