Gamma Glass Pendant Shade

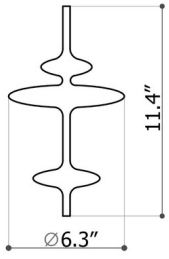

By Melogranoblu

Description

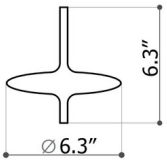

Part of the Hydra Collection, the Gamma Pendant lives with a simplicity dancing between design and applied art. Available with Clear handblown glass and a choice of two sizes. Each pendant includes one metallic mesh cord in a variety of hues.The glass pendant itself is not illuminated. An illuminated multi-port canopy, inner light element, or recessed lighting system is required for illumination, sold separately. With Gamma it is possible to create countless light configurations suitable for all architectural interiors. Almost space-like, the Gamma collection features varying sizes of handblown glass, acting as diffusers for recessed lights. Gamma suspensions look most striking when placed in a group. Handmade in Italy.NOTE: Cord length must be specified upon ordering and is not field-adjustable. Please contact our sales team to place an order.

Shown in black mesh / clear
