Datura Glass Pendant Shade

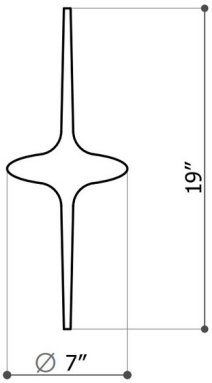

By Melogranoblu

Description

The Datura Pendant, part of the Hydra Collection, is a modular lighting system for interiors to easily design and create fascinating and articulated luminous compositions. Blown glass shapes suspended by tubular metal meshes, reflect light in the room. Versatility, lightness, easy installation and freedom of design are its distinctive features. With Datura it is possible to create countless light configurations suitable for all architectural interiors. Available with a Clear or Frosted shade and a metallic mesh cable in a variety of colors. The glass pendant itself is not illuminated. An illuminated multi-port canopy, inner light element, or recessed lighting system is required for illumination, sold separately. Beta suspensions look most striking when placed in a group. Handmade in Italy.

Shown in silver mesh / transparent
