Wick Portable Lamp By Graypants

 $(\in \mathfrak{S})$

Description

The Wick Portable Lamp features an unprecedented design that is portable and sustainable while also maintaining an elegant appearance. Inspired by the classic look of a traditional candleholder, Wick possesses a rechargeable battery that allows the lamp to be moved wherever a touch of ambient lighting is needed. The ring just underneath the LED module allows the brightness to be changed between the three preset levels and a pulse setting. USB-C rechargeable battery (cable included). Battery life lasts between 12-150 hours depending on the setting. CE listed, dry locations only.

Shown in brass
