NH Elliptic Chandelier

By Artemide

Description

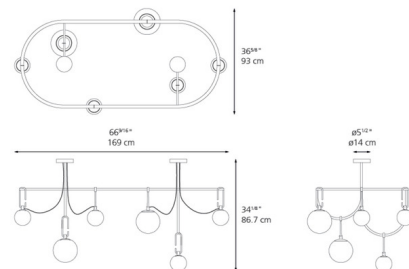

The NH Elliptic Chandelier by Artemide, an exquisite creation by Neri&Hu, is a masterclass in exploring the dynamic interaction of details, materials, form, and light. This fixture is not merely a source of illumination but a captivating mobile sculpture that brings sophisticated movement and balance to your interior. Suspended gracefully in the air, a set of pristine White Glass globes gently diffuses the emitted light, creating a soft, inviting glow. These luminous spheres are elegantly attached by delicate Brass hooks onto a sleek Black Metal frame, forming a compelling elliptic silhouette. The contrast between the warm brass, the crisp white glass, and the dark metal creates a sophisticated visual dialogue. Crafted with precision in Italy and UL listed, the NH Elliptic Chandelier exudes sleek sophistication, making it a perfect, visually intriguing centerpiece for any Contemporary interior, whether in a dining room, living area, or grand entryway.
