O Outdoor Pendant

By Artemide

Description

The O Outdoor Pendant by Artemide, a visionary design by Elemental, offers a refreshingly unique and minimalist approach to illuminating exterior spaces. This fixture is not just a light source; it's an open ring of pure illumination, designed to harmonize with nature while providing a compelling visual statement. A slim, open aluminum ring defines its elegant form, with its interior meticulously lined with a resilient silicone diffuser. This construction ensures exceptional durability against the elements, allowing the pendant to withstand various weather conditions. An integrated LED within the silicone emits a clean, even, and beautifully diffused layer of light, creating a serene ambiance for outdoor patios, gazebos, or covered walkways. It's important to note that this fixture includes a 24V LED driver, which must be installed in a remote location, a maximum of 4 meters (157.5 inches) away, ensuring the sleek, uninterrupted aesthetic of the pendant itself.
