Coordinates Pendant

By FLOS

Description

Transform your ceiling into a canvas of light with the Flos Coordinates S Pendant, a sophisticated design that presents a sleek, illuminated grid of strip lights. This sculptural pendant achieves a mesmerizing floating effect, suspended elegantly on unobtrusive electrified cables that blend seamlessly into your space. Each element of this striking fixture is crafted from extruded anodized aluminum and integrates an advanced LED strip diffused by platinum optical silicone, ensuring a consistent and refined glow. The Coordinates S offers remarkable flexibility with its adjustable hanging height, allowing you to perfectly position this striking piece. It's available in four predefined compositions (S1, S2, S3, S4), making it easy to find a configuration that suits your space. For truly expansive or custom lighting installations, the Module S option is available, designed to be used in multiples to create large, bespoke grids. The canopy, which discreetly houses the driver, mounts on a standard junction box, and the pendant is fully dimmable with a 0-10V dimmer, providing complete control over your contemporary residential or commercial environment.
