2097 Chandelier By FLOS

Description

Discover the enduring brilliance of the Flos 2097 Chandelier, an iconic fixture designed by Gino Sarfatti that has served as an ultra-modern interpretation of the traditional mid-century chandelier since its inception in 1958. Every detail of this state-of-the-art fixture is meticulously crafted and exceptional, setting it apart as a true design landmark. From its chic polished or matte steel structure to the individual, slender horizontal arms that elegantly support each light source, the 2097 embodies sophisticated industrial aesthetics. The design is imbued with intriguing visual complexity through its draped socket cords, which add a captivating sense of intricacy and organic flow. The main power cord gracefully meanders alongside the suspension cable, descending from the ceiling to the central column, enhancing its elegant presence. The exposed bulbs glow brightly, filling your space with a warm, ambient illumination that creates a striking focal point. The 2097 Chandelier is more than a light fixture; it's a statement piece that perfectly bridges contemporary, industrial, and mid-century modern styles, proving timeless in its powerful visual impact.

Specifications
