DESCRIPTION

The iconic 2097 Chandelier designed by Gino Sarfatti has served as an ultra-modern interpretation of the traditional mid-century chandelier since 1958. Every detail of this state-of-the-art fixture is exceptional, from the chic polished or matte steel structure to the individual horizontal arms supporting each light. Draped socket cords add intrigue and intricacy to the design, and the main cord meanders gracefully alongside the suspension cable from the ceiling down to the central column. The exposed bulbs glow bright and fill your space with warm ambient illumination. Notes: The incandescent options and Matte White LED options are UL listed. The other LED options are not UL listed. The Matte White finish is only available with LED bulbs.
