Belt Linear Pendant By FLOS

Description

Discover the unparalleled sophistication of the Flos Belt Linear Pendant, a Lightology Exclusive that redefines linear lighting with an exquisite blend of technology and artisanal craftsmanship. This truly unique technical pendant is encased in fine leather, meticulously sewn to measure, integrating all electrical and structural elements within its supple form. The design was conceived to achieve a sinuous, seemingly uninterrupted line of light, creating a breathtaking visual flow across your ceiling. The Belt pendant ingeniously conceals its dual functions: a soft, flexible part gracefully hangs from the ceiling, discreetly housing the electrical network, while a rigid section elegantly conceals the powerful light source. This innovative structure provides both direct and indirect illumination, allowing for comprehensive lighting that enhances depth and ambiance. It includes a remote power supply and offers independent user dimming control of both the uplight and downlight. Further enhancing its technological prowess, the Belt features an integrated Casambi controller, allowing for seamless control directly from the Flos control app, free to download from Google Play and the Apple App Store. Available in luxurious Black Leather, Green Leather, or Natural Leather finishes, complete with matching straps and metal clasps that double as elegant ceiling hooks, this fixture is designed exclusively for new construction applications, promising a truly bespoke and cutting-edge lighting experience.
