

BRAND

Rispal

DESCRIPTION

The Praying Mantis Floor Lamp is an American version of the classic mid-century French design by Francois Rispal. Named after La Mante Religieuse, or the Praying Mantis, this piece features beautifully arched legs with a pleated white lamp shade made from similar, but updated, materials that could be found in the 1950s. The structure is made from wood and is crafted by hand. The floor lamp can be used for ambient lighting in office or living spaces.
