Wick Portable Lamp

By Graypants

Description

The Wick Portable Lamp features an unprecedented design that is portable and sustainable while also maintaining an elegant appearance. Inspired by the classic look of a traditional candleholder, Wick possesses a rechargeable battery that allows the lamp to be moved wherever a touch of ambient lighting is needed. The ring just underneath the LED module allows the brightness to be changed between the three preset levels and a pulse setting. USB-C rechargeable battery (cable included). Battery life lasts between 12-150 hours depending on the setting. Dry locations only.
