Crown Side Table

By Jamie Young Company

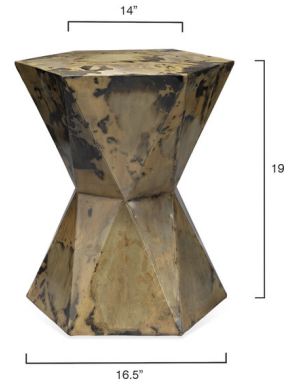

Description

The Crown Side Table is the stunning result when metallic sheet metal meets geometric angles. A lustrous patina graces the Crown's surface and adds to its visual impact. Its prismatic shape features flat facets and clean straight lines that feel cosmic, yet rustic in nature. Its camouflage-like patina has a shiny finish that highlights its flat geometric facets. The perfect blend of rustic alloy elements with a sleek modern design. Available in two sizes.

Shown in acid washed
