## Horizon Floor Lamp

By Wonderglass

## Description

The Horizon Floor Lamp is designed to disappear during the day, emerging into incandescent life at night, when its visually recessive steel structure creates the drama of an apparently floating vertical line of light. The glass body is handblown using the traditional balloton technique, producing an intricately textured cylinder whose character shifts seamlessly between translucent and opaque. On/off in-line switch located on the lamp's cord.

Shown in nickel / crystal
